## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-25 are allowed.
2. The following is an examiner's statement of reasons for allowance: Prior art fails to teach or suggest a rearview mirror system for indicating to an operator detection of an object in the blind zone, wherein the mirror consists of a first and second reflective element, with the second reflective element providing an image to an operator of an object in the vehicle blind spot, adjacent to the rearward view of the first reflective element, and a recognition enhancement device, associated with the second reflective element, for enhancing the object in the blind zone for better recognition by the operator, as well as effectively drawing the operators visual attention to the second reflective element, once an object is detected in the blond zone.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
